

# Beulah Fire Protection & Ambulance District

## Firefighter/EMT Ronnie Romero

Firefighter Ronnie Romero has been serving the District since March of 2023 completing all of his initial certification courses with Beulah Fire. FF Romero is a certified EMT, Wildland Firefighter II, Structure Firefighter I, and HazMat Operations. FF Romero is a true asset to our agency and our community always helping when he can. Here is a little more about FF Romero in his own words.

I was born and raised in Pueblo, like all my family. I attended CSU-Pueblo for college and then moved to Texas in 2006 and then moved back to the area in 2012. I have been a State Farm employee since 2006, opening my own State Farm agency in 2018. I come from a very large family, most of which still lives in the Pueblo area. My wife, who is an Emergency Room physician and her family are from Pueblo as well. My wife and I moved to Beulah in 2022. I joined the Beulah Fire Protection and Ambulance District because I felt like I was able to help and if something happened, I didn't want to stand there and watch. Beulah Fire is a great group of men and women that I am proud to stand next to and serve with. I am a 3rd generation firefighter, my grandpa was a Captain with the City of Pueblo Fire Department, and my aunt currently works there as well.
